

Create storyboards to represent the user flow for a mobile app (e.g., food delivery app) using OpenBoard

AIM:

To map out the user flow for a mobile app (e.g., a food delivery app), storyboards will be designed using OpenBoard.

Tool Link: <https://openboard.ch/download.en.html>

PROCEDURE:

Step 1: Define the User Flow

1. Identify Key Screens:

- List the main screens your app will have (e.g., Home, Menu, Cart, Checkout, Order Confirmation).

2. Map the User Journey:

- Understand the typical user journey through these screens (e.g., browsing menu, adding items to cart, checking out).

Step 2: Create Storyboards Using OpenBoard

1. Install OpenBoard:

- Download and install OpenBoard from the official website.

2. Create a New Document:

- Open OpenBoard and create a new document.
- 3. Add Frames for Each Screen:
 - Use the drawing tools to create frames representing each key screen of your app.
- 4. Sketch Each Screen:
 - Use the pen or shape tools to draw basic elements for each screen.
 - Focus on major UI components like buttons, text fields, and icons.
- 5. Organize the Flow:
 - Arrange the frames in a sequence that represents the user journey.
 - Use arrows or lines to show navigation paths between screens.

Example Screens for Food Delivery App

1. Home Screen:
 - Search bar for finding restaurants
 - Categories for different cuisines
2. Menu Screen:
 - List of food items with images, names, and prices
 - Add to Cart buttons
3. Cart Screen:
 - Items added to the cart with quantity and total price
 - Checkout button
4. Checkout Screen:

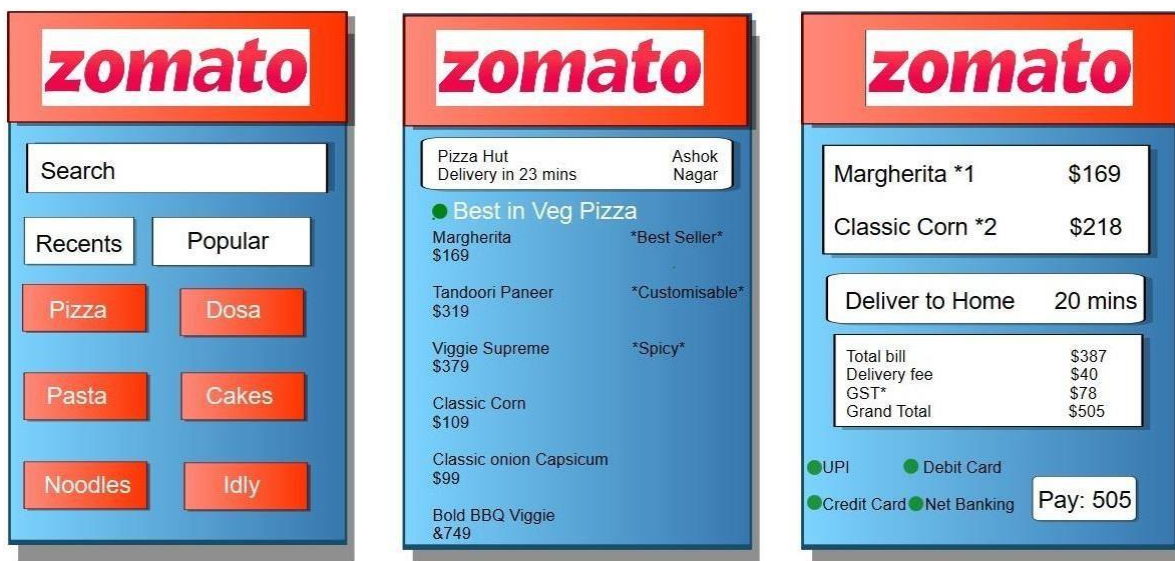

- Delivery address form
- Payment options ○

Place Order button 5. Order

Confirmation Screen: ○ Order
summary

- Estimated delivery time

OUTPUT:

RESULT:

Hence, user flow for a mobile app (e.g., a food delivery app), storyboards designed using OpenBoard have been executed successfully.
